What is Perfect Circle?

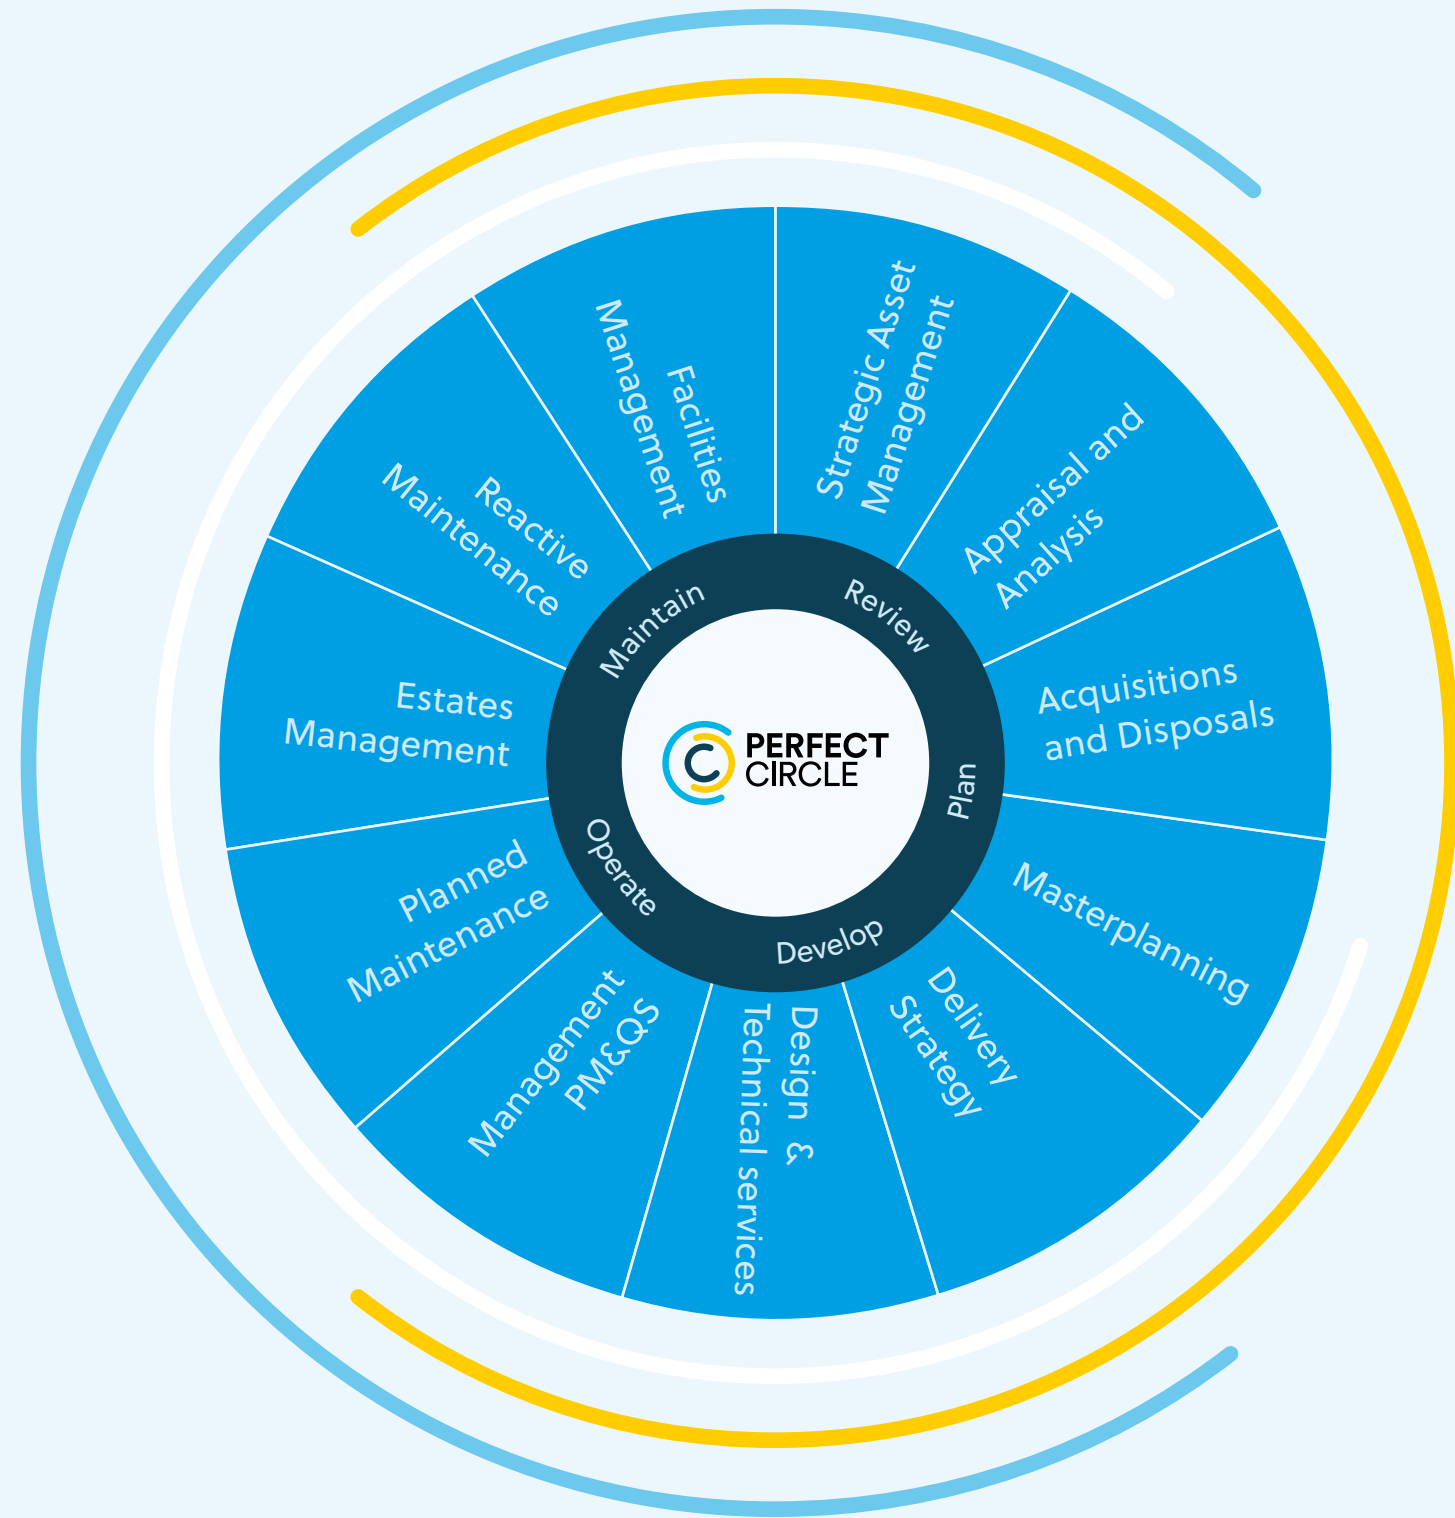

With accelerated access to utilities and infrastructure experts, Perfect Circle is an industry-leading partnership providing advisory, consultancy, professional and technical services.

Operating across the full range of sectors, as a collaborator we bring the market together to offer simple and rapid access to the most extensive team of experts in the UK.

We provide clients with a diverse, integrated, and local team of specialist suppliers, achieving value for money, efficiency and local economic impact.

Perfect Circle combines innovation with governance, collaboration and excellence to deliver the broadest range of services to the public and utilities sectors with a procurement compliant, competitively tendered model via a suite of SCAPE Consultancy frameworks.

Your complete consultancy solution

Through our strategic partnership of collaborative businesses and extensive supply chain we create sustainable solutions for your assets, and your built environment and infrastructure projects.

Whether it's professional advisory, consultancy or technical design services, we have the diversity, scale and expertise to deliver on every challenge our clients face.

With proven team capabilities, strong relationships and trusted partnerships, we provide an agile resourcing approach to shape the

right team with you, for superior outcomes and sustainable value.

With more than 35,000 professionals across multiple disciplines, we have the depth of technical resource to help you realise the full potential of every project.

Resilience
through an alliance of best in class global, national and local consultants in a collaborative ecosystem

Deliverability
with a Commissioning Gateway for Infrastructure and Built Environment projects which is simple single contract, accelerated delivery pre-tendered

Legacy
creating and maximising opportunities for local people and businesses to deliver a lasting and meaningful impact in the communities we serve

Strategic solutions and practical advice

We recognise that the public and utilities sectors continue to face intense pressure in meeting the needs of communities and economies. With a landscape of changing policies, and competing demands for capital, revenue and human resources, we understand how important early engagement is for advice and support to achieve your objectives.

At Perfect Circle we understand the nuances of procurement risk and value management. We offer a fully compliant solution to support decision making, with procurement at pace, savings on cost and quality in performance.

What is SCAPE Consultancy?

Frameworks that delivering real value

Perfect Circle offers the most efficient procurement route for clients via SCAPE, one of the UK's leading procurement authorities, and its compliant, competitively tendered Consultancy frameworks, which drives collaboration and efficiency, and delivers time and cost savings.

Supporting you at every stage;

Perfect Circle was appointed to SCAPE Built Environment and Infrastructure Consultancy frameworks in January 2021 having previously delivered SCAPE's frameworks since 2016. These frameworks will run until January 2027.

In April 2024 Perfect Circle was also appointed to the SCAPE Utilities Consultancy frameworks which will run until April 2028.

SCAPE is a not for profit, local authority owned entity, which reinvests all surplus back into the public sector. It is the only public sector framework to have been recognised as a Champion of the Construction Leadership Council's Carbon Reduction Code and is dedicated to creating spaces, places and experiences that leave a sustainable legacy within the community.

What are the benefits of procuring a project with Perfect Circle?

Speed of appointment

saving time on procurement and service commencement.

Ease of access

to industry leading experts and collaborative teams.

Flexibility

to form the team that you want.

Single appointment

single process, single point of responsibility.

Complete

procurement compliance.

Certainty of value for money

open market tendered rates, benchmarked for value.

Governance and compliance

in framework management and ISO accredited processes.

Best practice,

of an established, managed framework and delivery partner.

Integrated social value

Creating community benefits

Depth of client support and advice

via our network of regional leads and sector leads

You're in good company

We are immensely proud of the success we have achieved with SCAPE since 2016, and the strong relationships we have forged with clients and our network of supply chain partners.

Our clients have benefited from significantly reduced procurement time and savings. Together with SCAPE, we have delivered real value, ensuring social, economic and environmental benefits sit at the heart of every project – enabling clients to unlock true social value and create a lasting legacy for their communities.

Working with Perfect Circle

Appointment journey

Accessing our services via SCAPE is simple, quick and efficient. Follow these simple steps below.

Step 1
Complete a SCAPE Access Agreement
This is a simple form that we can request on your behalf and which carries no cost or commitment and can be signed digitally via DocuSign.

Step 2
Explore your service options
Discuss your requirements directly with Perfect Circle, or with your existing trusted Perfect Circle Partner. Shape your service delivery team with a Lead Partner and Supply Chain Partners.

Step 3
Service Request Proposal provided by Lead Partner
This sets out the brief, scope of services and fees.

Step 4
Delivery Agreement signed and commission launch
Using the highly flexible NEC3 Term Service Contract and the NEC4 Professional Services Contract (long or short form), the Delivery Agreement will set the commercial and technical parameters of our appointment, in line with the overarching Framework Agreement.
